

COVID-19

What We Are Doing. How You Can Help.

Getting tested - Do I qualify for a rapid test?

BinaxNOW™ COVID-19 antigen testing is available for patients who have COVID-19 symptoms, with symptom onset within the past seven days. Testing is also available for patients without symptoms. However, test results may not be available as quickly. Patients being treated in a hospital emergency department or as an outpatient will also be tested, as appropriate.

Where can I get tested?

How do I do my part?

- Wear a mask or cloth covering when in public
- Practice a minimum of 6' social distancing and avoid all non-essential contact with those outside your home or work
- Wash your hands frequently for 20 seconds or more
- Disinfect frequently-touched surfaces
- Stay home when you can
- Get a flu shot
